Pedigree For:

Lola (Lola Jeanne)

Registration :GANA-040735

Lola has joined our program and is living her best life with her guardian family in Houma. We will be monitoring her growth over the next 10 months and will begin her OFA testing once she is a year old. When she passes all of her pre-breeding testing, we will begin making plans for her first litter if we can find a stud that balances well with her. We have received her DNA Health and Trait testing and is exactly what we expected. It is posted on her “View Profile” page. Stay tuned as we share her with you as she matures!

Rhett (Someday Doodles Rhett (GD))
